PROFESSIONAL SUMMARY

UI/UX Designer with strong expertise in User-Centered Design, Interface Systems, Wireframing, and Prototyping. Experienced in creating modern, functional, and visually consistent digital interfaces for web and mobile platforms. Skilled in transforming business requirements into intuitive and engaging user experiences. Strong understanding of usability principles, design systems, interaction design, and responsive layout structures.

PROFESSIONAL EXPERIENCE

UI/UX Designer:

- **Created** wireframes, user flows, low-fidelity and high-fidelity prototypes using Figma and Adobe XD.
- **Developed** structured layout systems and reusable component libraries to maintain visual consistency.
- **Designed** responsive landing pages optimized for desktop and mobile devices.
- **Conducted** research-based design decisions aligned with user needs and business objectives.
- **Defined** user personas and basic customer journey maps to better understand target audience behavior.
- **Structured** information architecture to simplify navigation and improve task completion efficiency.
- **Improved** visual hierarchy, readability, and interaction clarity within digital products.
- **Built interactive prototypes** for stakeholder presentations and usability validation.
- **Applied typography** systems, spacing rules, grid structures, and accessibility principles in UI layouts.
- **Collaborated** with developers to ensure accurate implementation of design specifications.
- **Iterated designs** based on feedback and usability considerations to enhance overall user experience.
- **Adapted UI assets** for multiple screen sizes and device resolutions.

Senior IT Specialist:

20/05/2025 - Until Now | Evex Clinics

- **Provided** day-to-day IT support to staff, ensuring minimal downtime in critical medical (IT) operations.
- **Collaborated** with some other IT job groups, including ITI, Service Support Groups, for system upgrades, security and process improvements.
- **Coordinated** IT Projects including system migrations, software rollouts and hardware refresh cycles.
- **Documented, Managed and Created** IT Processes for new interns and employees of our IT group.
- **Managed** Cloud Services – Supporting and managing Azure, Workspace, Teams, Outlook and more licenses; Managed Mailbox migrations, modifications and etc.

CORE COMPETENCIES

User Interface Design
User Experience Design
Wireframing & Prototyping
Responsive Web Design
Mobile UI Design
Design System
Component-Based Design
User Flows & Information Architecture
Interaction Design
Usability Principles
Landing Page Design
User Personas
User Research

TECHNICAL SKILLS

Figma – Advanced
Adobe XD – Basic
Adobe Photoshop – Advanced
Adobe Illustrator – Advanced

Wireframing
Prototyping
Component Libraries
Design Systems
Responsive Layout
Interaction Design
