## PROFESSIONAL SUMMARY

Creative and detail-oriented UX/UI & Graphic Designer with experience in developing intuitive digital interfaces and visually compelling brand materials. Skilled in Figma, Adobe Photoshop, and Illustrator, with a strong understanding of visual hierarchy, typography, layout, and user-centered design principles. Experienced in creating logos, branding, marketing materials, social media content, and UI/UX prototypes. Combines creative thinking with technical precision to deliver modern, functional, and engaging design solutions.

## WORK EXPERIENCE

**Freelancer**

Sep 2025 - Present

Graphics Designer

- Designed and developed complete brand identity systems, including logos, typography hierarchies, color palettes, brand guidelines, and scalable visual assets.
- Prepared professional print-ready production files (CMYK setup, bleed, dielines, trim marks) ensuring high-quality printing results.
- Developed advertising materials such as promotional posters, banners, brochures, flyers, and large-format visuals.
- Performed advanced photo retouching including skin correction, color grading, lighting adjustments, compositing, and background manipulation.

**Freelancer**

Sep 2025 - Present

UI/UX Designer

- Created wireframes, user flows, low-fidelity and high-fidelity prototypes using Figma and Adobe XD.
- Designed responsive landing pages optimized for desktop and mobile devices.
- Defined user personas and basic customer journey maps to better understand target audience behavior.
- Applied typography systems, spacing rules, grid structures, and accessibility principles in UI layouts.
- Improved visual hierarchy, readability, and interaction clarity within digital products.
